January 2, 1992

Mr. James Schaffer
Department of the Navy
Northern Division
Naval Facilities Engineering Command
Philadelphia, PA 19112-5094

Subject: Transmittal of October 3, 1991 TRC Meeting Minutes

Dear Jim:

Enclosed is the final copy of the October 3, 1991 meeting minutes. We have incorporated the final comments as requested. Copies of the minutes have been forwarded to USEPA, MEDEP, NAS Brunswick, and the TRC distribution.

If you have any questions or concerns please feel free to call.

Sincerely,

ABB-ES

Melville P. Dickenson, III, PhD.
Task Order Manager

ABB Environmental Services, Inc.

R. Bernier	Topsham Comm. Member	
G. Apraham	NASB	
T. Wolf	MEDEP	
M. Hubert	MEDEP	

MEETING DATE: October 3, 1991 8:30 AM

MEETING LOCATION: NAS, Brunswick

I. Introduction

The TRC meeting was opened with an introduction by Captain Wilson, and Jim Shafer reviewed the agenda items for the meeting.

II Review of Public Meeting/Public Comment Period

- NAS Brunswick will be responsible for providing the stenographer for the Public Meeting.
- Casco Cable will be invited to televise the Public Meeting.
- Mike Labbe will secure the location for the Public Meeting.
- A dry run presentation for the Public Meeting will be scheduled for the first week of December.

III Pesticide Shop Removal Action

- A schedule for the removal action of the former Pesticide Shop has been presented to the MEDEP and the Navy will adhere to this schedule.
- The Pesticide shop is listed under a NAS Brunswick RCRA closure order, but the MEDEP has agreed that the Pesticide Shop program can be handled under CERCLA using a non time critical Removal Action. The Removal Action will be accomplished using an EE/CA.
- Ted Wolf will remain the point of contact at the MEDEP, but Scott Woodier, from the RCRA group at the MEDEP will be included in the review process.

IV General Discussion

- Susan Weddle is the official representative for the BASCE group for this TRC meeting, but she is also representing the community of Brunswick.
- The TAG contractor has been selected, and will be Robert Gerber, Inc. A contract will be signed as soon as EPA approves the selection. Carolyn Lepage has tentatively been identified as the point of contact at Gerber, Inc.
- It was decided that the Proposed Plans for Sites 1 and 3 and the Eastern Plume need to indicate that the POTW is the preferred alternative for discharge of treated groundwater, but the other potential alternatives including upgradient discharge and discharge to surface water need to be discussed as alternative options.
- Susan Weddle asked if radioactivity in groundwater at NAS Brunswick had been characterized. She was concerned about potential radon contribution to groundwater. This issue is not within the CERCLA scope of studies and sampling for radon levels is not proposed.

The next TRC was tentatively scheduled for Thursday, January 9, 1992 at 8:30 AM, but the meeting has been rescheduled for Thursday February 20, 1992 at 8:30 AM.
